Lead Template
Professional Learning Statement

QUEENSLAND COLLEGE OF TEACHERS

The professional learning statement provides at least three examples of professional learning undertaken, designed, and/or delivered, by the applicant during the five-year period of certification. In describing each example, the applicant should provide:

- the rationale for the selection of the professional learning.
- the context for the example (e.g. school, role, class context).
- the nature of the professional learning undertaken, designed and/or delivered, by the applicant.
- a description of how the applicant has used the knowledge gained through the professional learning to increase their capability and/or the capability of their colleagues.

Applicants are not required to provide evidence items (e.g., unit plan, lesson plan) with their written statement. Applicants do not need to write to the descriptors of the Australian Professional Standards for Teachers. Use a new template for each example.

Applicants need to consider the professional capabilities of the Highly Accomplished Teacher outlined in the *Guidelines for the Renewal of Certification of Highly Accomplished and Lead Teachers by the Queensland College of Teachers*.
