Our operating principles

Forward looking

We look to the horizon and position ourselves to be responsive and solution-focused

Collaborative

We are one organisation, maximising opportunities through our stakeholders and partners

Equitable

Our decisions are evidence-based with consideration to fair and just processes

Inclusive

We embrace inclusive mindsets, behaviours, decisions and actions

Sustainable

We are environmentally, socially and financially responsible

The agency supports the Government's objectives for the community

Good jobs – Good, secure jobs in our traditional and emerging industries

Better services – Deliver even better services right across Queensland

Great lifestyle – Protect and enhance our Queensland lifestyle as we grow

We contribute directly to the following:

- Educating for the future** – By registering teachers in Queensland to provide quality education for children and students
- Investing in skills** – By approving teaching qualifications delivered by educational institutions and by approving appropriate people to work as teachers
- Backing frontline services** – By supporting and promoting the teaching profession
- Growing our regions** – By supporting initiatives to attract and retain teachers in regional and remote areas

Opportunities

- Collaboration** Nurture partnerships to collectively address complex issues impacting the teaching profession
- National alignment among regulatory authorities** Foster alignment and consistency among regulatory authorities across Australia
- Communication** Improve communication of QCT's work and the value it adds
- Operations** Optimise how we operate within our organisation and reduce our environmental footprint
- Balance** Find a balance between being a regulator and promoter of the teaching profession

Risks

- Challenging social and economic context** QCT must be flexible and accommodating while maintaining quality standards
- Supply and Demand** QCT is impacted by level of demand for teaching as a career option and the standing of the profession among the public
- National policies and initiatives** QCT can be impacted by decisions made federally or in other jurisdictions
- Value proposition** Stakeholders remain unaware of the value QCT provides to the public and the profession
- Organisational sustainability** Continuing to deliver services while operating with limited resources and funding

We acknowledge the traditional owners and custodians of the lands from across Queensland. We pay our respect to Elders, past and present, for they hold the memories, traditions, the culture and hopes of Aboriginal and Torres Strait Islander peoples across the state.

We respect, protect and promote human rights in our actions and decision-making.
